

Hello

We are delighted to welcome Dr David Crosbie (GDC 64256) as a full partner at Whitehall Dental Practice.

David will be joining us in July and is excited to be taking over the permanent care of the patients formerly treated by James Prichard and Lynn Hannaford.

The decision was made to offer David a partnership at WDP to guarantee patients the continuity of care that they deserve and appreciate. David is already a familiar face at Whitehall, he has been placing dental implants at the practice for the last 2 years. He shares Jeremy's commitment to provide quality private dental care and to continue to improve the services available here at Whitehall

David is originally from Perth, Scotland but grew up in Yorkshire. He went to Edinburgh University Dental School, qualifying in 1989. After spending time working at Leeds Dental School, he then went into practice, first in Yorkshire then in London. He owned two practices there before selling up and moving to beautiful North Devon for a supposed quiet life. David developed an interest in dental implants first in London, completing a Diploma in Implantology at Bristol. He mentors other dentists starting out in implantology. Outside work, David enjoys cycling, skiing, golf and hiking in our wonderful countryside with his wife Virginia and three children James, Georgina and Holly. He is really excited about starting full-time at Whitehall.

Our Endodontic referral service at Whitehall has been running for 3 years, and we have now decided to improve and extend the service further. To do this we welcome **Dr Gareth Thomas (GDC 153153)**

Gareth qualified with honours at Cardiff university in 2008.

He commenced advanced postgraduate training gaining his MFDS qualification at the Royal College, a diploma in Endodontics at Warwick and his Masters in Endodontics (with merit) at Cardiff University.

Gareth has been receiving referrals for complex endodontic treatment for a number of years both in the teaching hospital environment and in private practice. His roles include speciality dentist in Endodontics at the Royal London Dental Hospital, Clinical Lecturer in Endodontics at Cardiff University, Senior Dental Officer in Endodontics for Powys Health Board.

Gareth will be joining us in April 2016
